Our Purpose

- Describe Nurses capacity to influence change and to provide examples of effective leadership.
- Discuss ongoing efforts in CT related to the Robert Wood Johnson Foundation and the American Association for Retired Citizens campaign for Action: Future of Nursing.

What is the VOPHN?

The Connecticut Department of Public Health (DPH) Virtual Office of Public Health Nurses' (VOPHN) formed to provide state support and leadership to foster collaborations between local health agencies, community partners, academia, professional organizations, and DPH. Although virtual, a core team of nurses from across the agency continue to work together to support this effort and the Office of Local Health Administration coordinates activities. The VOPHN's vision is to promote the health of populations in Connecticut by supporting excellence in public health nursing practice.

Target Audience

The target audience for this workshop is nurses working in public health roles, nurse educators, students interested in public health practice, and other nursing leaders in Connecticut.
